Where Innovation Accelerates

DISRUPTIVE MORNING

Peer Briefing On Relevant Topics
in Technology & Innovation

SPEAKER

Jürgen Schulz

Head Development
Iftest AG
Wettingen
Switzerland

Jürgen Schulz holds a degree in electrical engineering. Since 1993, he has been working in the field of Electronic Engineering and Manufacturing Services (E²MS) with a strong focus on regulatory affairs for new products in medtech as well as industrial markets.

HIGHLY INNOVATIVE MEDTECH START-UP MEETS REGULATORY SAFETY REQUIREMENTS

Cardiobridge, located in Hechingen in southern Germany, has developed an innovative cardiopump for use in a hospital setting. The company approached Iftest in 2009 about developing a new product that would be ready to be launched into the European market including CE marking. Based on an initial product concept, requirements and hazards, the two companies worked together to create an appropriate system architecture.

Iftest developed an electronic hardware and firmware product solution to mitigate those hazards, in particular concerning first-fault safety. The presentation will provide a detailed overview ranging from the project onset, a description of the regulatory landscape and how it affected product design and development, resulting in the final product that received regulatory approval in 2017.

AGENDA

- 7.45 am** Coffee
- 8.00 – 8.30** Presentation
- 8.30 – 8.45** Discussion
- 8.50** Wrap up & End

The audience is limited to 12 participants. Registration is on a first-come first-served basis under: info@parkinnovaare.ch

The event is free of charge; it will be held in English and/or German, depending on the speaker and the audience.

DISRUPTIVE MORNING

is an open and highly interactive platform for project leaders and R&D senior executives from various industries as well as for researchers in academia.

Representatives from industry and/or science meet their peers for a comprehensive and yet compact overview of the most relevant topics in technology and innovation.

The purpose of this platform: to provide new insights and ideas; to build solid, ongoing relationships between those at the forefront of innovation. On a regular basis and at different locations. Straight to the point.

What MEDTECH START-UP MEETS REGULATORY
When Wednesday | 31st January 2018 | From 7:45 AM
Where IFTEST AG | Schwimmbadstrasse 43 | 5430 Wettingen

with practical insights from

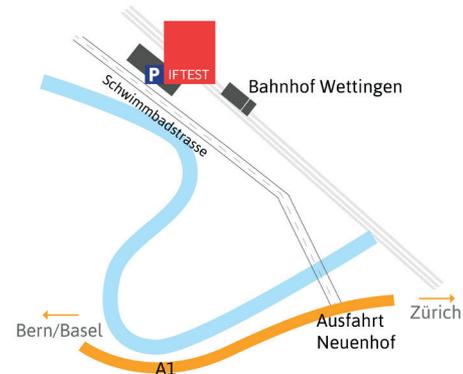

PARK INNOVAARE

is an innovation center situated in close proximity to the Paul Scherrer Institute PSI. Here, driven by the PSI's expertise, innovations in the fields of accelerator technology, advanced materials and processes, humans and health, and energy are transformed into marketable products and solutions. With the ambition to provide the best services for industrial research groups and spin-offs, we bring together entrepreneurs from large companies, SMEs and research institutions from Switzerland and from abroad. Our mission is to link the right people together, so that innovations can be brought to market faster.
